The following is an examiner's statement of reasons for allowance:

The terminal disclaimer filed on 7/20/08 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US patent 7,349,745 has been reviewed and is accepted. The terminal disclaimer has been recorded.

The allowability of the independent claim 21 resides, at least in part, in that closest prior art of record Boger et al. (US 6,453,261) does not disclose or suggest, alone or in combination, a control valve actuation stage in communication with the amplifier, the control valve actuation stage comprising at least a current-to-pressure transducer and a pneumatic relay in communication with the current-to-pressure transducer, the control valve actuation stage further including at least one of a group of a quick exhaust valve and a volume booster in pneumatic communication with the current-to-pressure transducer, in combination with the other elements and features of the claimed invention.

The allowability of the independent claim 38 resides, at least in part, in that closest prior art of record Boger et al. (US 6,453,261) does not disclose or suggest, alone or in combination, a lead-lag input filter in communication with the logical process; a user interface in operable communication with the lead-lag input filter, the user interface in communication with a processor, a display, an input device, and a routine adapted to display a graphical representation of at least one adjustable control on the display, the

Art Unit: 2123

routine further adapted to display an alteration in the graphical representation of the at least one adjustable control in response to a manipulation of the input device and the processor is adapted to signal a change in output of the lead-lag input filter corresponding to the manipulation of the input device, and wherein the change in output of the lead-lag filter alters the at least one adjustable process parameter within the logical process, in combination with the other elements and features of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
